

AMC Training & Consulting and E-Learning Products

Learning & Assessment Resources for Sale CHC33015

AMC Training and Consulting deliver Certificate III in Aged Care, Home and Community Care and Disability and will commence delivery of CHC33015 Certificate III in Individual Support in 2017.

Thank you for your enquiry about AMC Training & Consulting (AMC) Resources. They provide a solid foundation for training.

Something that sets AMC resources apart, is that we are a working RTO. All of our modules are written by the Director or in collaboration with industry specialists for delivery in our own classrooms and via distance education.

AMC Training Resources are used around Australia by many RTO's and have been through ASQA Audits repeatedly in 2016 and 2017 with glowing reports. Having said that, we know they are working documents and are being continually reviewed to maintain industry relevance in a community service industry in a state of rapid change, especially the Disability and Home Care areas.

The resources are

- The latest training package.
- Written at the appropriate AQF level by industry experts with TESOL qualifications.
- Mapped against the performance criteria, performance evidence, knowledge evidence and assessment conditions.
- Engaging for the student with lots of white space and real life case studies.
- Written to the highest standards of VET and Industry requirements.
- Address the core competencies in a way that prepares students for the workplace. Work ready.
- Tried and tested with our own student base.
- Designed to be interactive with the vocational experience.
- Fully assessment ready with assessments embedded in each stand-alone module.
- Modules have been reviewed by a TESOL specialist to help maintain simplicity of language and high level of understanding.

We have had over 2000 of our own students work through our modules with great feedback from those students. Other indicators of effectiveness of our training resources is that AMC has a high completion rate for our students and the aged care facilities and disability services in our area also comment that our students are trained thoroughly and are an asset to their teams.

AMC have a rigorous review process built into our annual calendar with modules being reviewed on an annual basis or more frequently if concerns are raised from students if changes occur in the industry.

AMC Training Resources are available through a number of options including paper-based resources and e-learning resources or a combination of Elearning and paper-based assessments.

We look forward to working with you in 2017 and beyond.

Yours sincerely,

Anne Cock

Director

AMC Training & Consulting (AMC) provider number 32129 is a Registered Training Organisation specialising in Health and Community Care qualifications. This includes nationally recognised qualifications and industry specific skill set programs designed to train and up-skill the Health and Community Services workforce.
